### ***TOYMAKER 3000 DONORS***

The Museum of Science and Industry's newest, permanent exhibit, *ToyMaker 3000*, was made possible by the generous support of the following major donors: Rockwell Automation, U.S. Department of Energy, ITW Foundation, and the U.S. Small Business Administration.

#### **Rockwell Automation**

Rockwell Automation is a leading global provider of industrial automation power, control and information solutions that help customers meet their manufacturing productivity objectives. Headquartered in Milwaukee, Wisconsin, the company employs about 22,000 people serving customers in more than 80 countries. The company also is a leading provider of contact management technologies and applications marketed under Rockwell FirstPoint Contact brand names, and operated from Wood Dale, Illinois.

Rockwell Automation, now celebrating its centennial anniversary of the Allen-Bradley brand, focuses at least 50 percent of its charitable contributions in the area of Education/Youth Development with emphasis on math, science and technology. The company makes donations to more than 250 organizations and augments those with in-kind gifts of employee volunteerism, products and services.

#### **U.S. Department of Energy**

The U.S. Department of Energy leads the national efforts to ensure energy security, implement the President's National Energy Plan, sponsor cutting-edge science and technology development, protect the environment and aid the nation's defense.

#### **ITW**

Illinois Tool Works Inc. designs and produces an array of highly engineered fasteners and components, equipment and consumable systems, and specialty products and equipment for customers around the world. A Fortune 200 diversified manufacturing company with more than 90 years of history, ITW's approximately 600 decentralized business units in 44 countries employ nearly 49,000 men and women who are focused on creating value-added products and innovative customer solutions.

The ITW Foundation contributes financial support to more than 240 non-profit organizations. The grants are concentrated within the metropolitan areas where ITW has a strong presence in the community. The ITW Foundation focuses on education, culture, social welfare, youth and human services.

**U.S. Small Business Administration**

The U.S. Small Business Administration (SBA), established in 1953, provides financial, technical and management assistance to help Americans start, run, and grow their businesses. With a portfolio of direct and guaranteed business loans and disaster loans worth more than \$45 billion, SBA is the nation's largest single financial backer of small businesses. Last year, SBA offered management and technical assistance to more than 1.5 million small business owners. SBA also plays a major role in the government's disaster relief efforts by making low-interest recovery loans to both homeowners and businesses. America's 25 million small businesses employ more than 50 percent of the private workforce, generate more than half of the nation's gross domestic product, and are the principal source of new jobs in the U.S. economy.

The Museum of Science and Industry is also grateful for the generous support from the Lester B. Knight Charitable Trust, Julius Frankel Foundation, and Mr. and Mrs. John P. Keller.
